

Deciphering Dysphagia with Ampcare's ESP™ (Effective Swallowing Protocol) Friday, September 21, 2018

Course location:

Hotel Indigo Houston at the Galleria Davinci Room 5160 Hidalgo Street Houston, TX 77056 Phone: 713-621-8988

- The Most Comprehensive FDA-Cleared Treatment for Dysphagia
- Learn the Latest Assessment Techniques
- Accelerate Recovery by Combining Neuromuscular Electrical Stimulation with Resistive Exercise
- Do More in 30 Minutes
- Earn o.8 ASHA CEUs

New 30-minute Treatment for Dysphagia

Ampcare's patented and FDA-cleared system for dysphagia treatment takes traditional therapy approaches to the next level. Ampcare's ESP (Effective Swallowing Protocol) unites the benefits of neuromuscular electrical stimulation (NMES) while incorporating proper postural strategies and resistive exercises.

Patient at rest

Patient receiving ESP

This seminar will guide clinicians through the latest clinical approach to treat dysphagia. Ampcare's ESP combines NMES with specifically designed electrodes to fit the submental and facial areas to work in conjunction with indirect (NPO) techniques and newly-developed therapeutic exercises. This systematic rehabilitation approach works to improve hyo-laryngeal excursion and enhance swallowing posture by providing the tools to accelerate swallow function.

This course will teach participants the specific rationale behind the parameters best suited for small muscle rehabilitation, review the anatomy of the muscle groups and cranial nerves associated with the swallow, and provide extensive "hands on" experience using the technique.

Participants will receive:

- 1 (one) package of FDA 510(k) cleared Ampcare E Series Electrodes
- Course manual, which will be reviewed with a PowerPoint presentation, and includes pictures, exercises and flow chart for demonstration purposes and enhanced learning

Agenda:

7:30-8:00	Registration	
8:00-8:30	Developing the Concept of ESP	
8:30-9:00	Evidence-Based Research Validating ESP	
9:00-10:00	Anatomy and Physiology as it Relates to NMES	
10:00-10:15	Break	
10:15-10:30	Cranial Nerve Assessment for Dysphagia	
10:30-11:00	Muscle Fibers and Recruitment Patterns	
11:00-12:00	Fundamental Principles of NMES and Ampcare ESP Parameters	
12:00-12:30	Lunch (provided)	
12:30-1:00	Evidence Under Videofluoroscopy and FEES using ESP	
1:00-2:15	Electrode Placements, Restorative Posture Device & Recommended Exercises	
2:15-3:15	Hands on Lab, Programming the Ampcare ES unit and Electrode Applications	
3:15-3:30	Break	
3:30-4:00	ESP for Oral Motor Management - Facial placement	
4:00-4:30	Documentation and Billing, FDA 510(k) and Competencies	
4:30-5:00	Post Test, Q & A	

This accredited continuing medical education activity is copyrighted © 2013 by AMPCARE, LLC 14.Rev.A

Accreditation

Ampcare, LLC is approved by the Continuing Education Board of the American Speech-Language-Hearing Association (ASHA) to provide continuing education activities in speech-language pathology and audiology. See course information for number of ASHA CEUs, instructional level and content area. ASHA CE Provider approval does not imply endorsement of course content, specific products or clinical procedures.

This course is offered for <u>o.8</u> CEU's (Advanced level, Professional area)

Faculty

Russ Campbell, PT, is an award-winning therapist and received his degree from Northwestern University in 1989. Over his 25 years of clinical practice he has provided care in acute care hospitals, inpatient rehab units, skilled nursing facilities, outpatient clinics and home health arenas. Russ specializes in using modalities in conjunction with a holistic approach to foster faster outcomes to maximize the quality of life of the elderly patient. He has provided over 500 continuing education trainings to physical, occupational and speech therapists across the country.

Ronda Polansky, MS, CCC-SLP, is an ASHA-certified Speech Language Pathologist and owner of DiagnosTEX, a mobile Modified Barium Swallow Study company in Dallas/Fort Worth, Texas. She has more than 20 years of experience specializing in dysphagia and has performed over 15,000 Modified Barium Swallow Studies (MBSS). Ronda has led CE courses and has published materials on dysphagia. She received her Masters degree in Communication Science Disorders/Speech Pathology from Texas Woman's University in 1992.

Rick McAdoo, MS, CCC-SLP, received a Bachelors of Science in Speech-Language Pathology from Texas Christian University in 1989 and received his Masters of Science in Speech-Language Pathology from Texas Christian University in 1990. He has worked primarily with the adult neurogenic population with specialized emphasis in dysphagia. Over the past 15 years his focus has included a research component and was the first to show laryngeal elevation using transcutaneous electrical stimulation on both a computerized laryngeal analyzer and under video fluoroscopy.

Course instructors may vary based on the number of attendees.
