

Deciphering Dysphagia with Ampcare's ESP™ (Effective Swallowing Protocol)

Live, In-Person on July 5th and 6th

4 hours of live training each day

Total of 8 hours Advanced ASHA CEUs

Course Details:

Wednesday, July 5, 2023
1-5 pm (CT)

Thursday, July 6, 2023
8 am-Noon (CT)

Encompass Health
Rehabilitation Hospital of Jonesboro
1st Floor Conference Room
1201 Fleming Ave.
Jonesboro, AR 72401

• Total of 8 hours Advanced ASHA CEUs

- The Most Comprehensive FDA-Cleared Treatment for Dysphagia
- Learn the Latest Assessment Techniques
- Accelerate Recovery by Combining Neuromuscular Electrical Stimulation with Resistive Exercise
- Do More in 30 Minutes
- Earn 0.8 ASHA CEUs

New 30-minute Treatment for Dysphagia

Ampcare's patented and FDA-cleared system for dysphagia treatment takes traditional therapy approaches to the next level. Ampcare's ESP (Effective Swallowing Protocol) unites the benefits of neuromuscular electrical stimulation (NMES) while incorporating proper postural strategies and resistive exercises.

This seminar will guide clinicians through the latest clinical approach to treat dysphagia. Ampcare's ESP combines NMES with specifically designed electrodes to fit the submental and facial areas to work in conjunction with indirect (NPO) techniques and newly developed therapeutic exercises. This systematic rehabilitation approach works to improve hyo-laryngeal excursion, speed up laryngeal vestibule closure reaction times and enhance swallowing posture by providing the tools to accelerate swallow function.

This course will teach participants the specific rationale behind the parameters best suited for small muscle rehabilitation, review the anatomy of the muscle groups and cranial nerves associated with the swallow, and provide extensive "hands-on" experience using the technique.

Participants will receive:

- 4 hours of online pre-course work and 4 hours of live interactive training
- 1 (one) package of FDA 510(k)-cleared Ampcare E Series Electrodes
- Training course manual, which will be reviewed with a PowerPoint presentation that includes pictures, exercises, and flowchart for demonstration purposes and enhanced learning

Agenda:

Live, in-person training (4 hours) on July 5, 2023, 1 pm-5 pm CT

- Introduction to the Ampcare ESP Online Training (12:00)
- Developing the Concept of ESP (23:00)
- Evidence-Based Research Validating ESP (25:00)
- Anatomy and Physiology as it Relates to NMES (60:00)
- Cranial Nerve Assessment for Dysphagia (20:00)
- Muscle Fiber Types and Recruitment Patterns (40:00)
- Fundamental Principles of NMES and Ampcare ESP Parameters (60:00)

Live, in-person training (4 hours) on July 6, 2023, 8 am-Noon CT

- Fundamental Principles of NMES and Ampcare ESP Parameters (30:00)
- Videos of Application, Video fluoroscopy and FEES of ESP (30:00)
- Electrode Placement, Restorative Posture Device & Recommended Exercises (30:00)
- Programming the Ampcare ES Unit & Electrode Applications (15:00)
- Hands-on lab break up into groups (60:00)
- ESP for Oral Motor Management - Facial Placement (45:00)
- Documentation and Billing, FDA 510(k), and Competencies (15:00)
- Post Test - Q & A (15:00)

Faculty

Russ Campbell, PT, is an award-winning therapist and received his degree from Northwestern University in 1989. Over his 30 years of clinical practice, he has provided care in acute care hospitals, inpatient rehab units, skilled nursing facilities, outpatient clinics and home health arenas. Russ specializes in using modalities in conjunction with a holistic approach to foster faster outcomes to maximize the quality of life of the elderly patient. He has provided over 500 continuing education trainings to physical, occupational and speech therapists across the country.

Ronda Polansky, MS, CCC-SLP, is an ASHA-certified Speech Language Pathologist and owner of DiagnosTEX, a mobile Modified Barium Swallow Study company in Dallas/Fort Worth, Texas. She has more than 25 years of experience specializing in dysphagia and has performed over 15,000 Modified Barium Swallow Studies (MBSS). Ronda has led CE courses and has published materials on dysphagia. She received her Master of Science in Communication Science Disorders/Speech Pathology from Texas Woman's University in 1992.

Rick McAdoo, MS, CCC-SLP, received a Bachelor of Science in Speech-Language Pathology from Texas Christian University in 1989 and received his Master of Science in Speech-Language Pathology from Texas Christian University in 1990. He has worked primarily with the adult neurogenic population with specialized emphasis in dysphagia. Over the past 20 years his focus has included a research component and was the first to show laryngeal elevation using transcutaneous electrical stimulation on both a computerized laryngeal analyzer and under video fluoroscopy.

Course instructors may vary based on the number of attendees.
