

The Ampcare Team

Russ, Ronda and Rick have worked together for 20 years to establish new treatment protocols in oropharyngeal dysphagia. Merging their interdisciplinary care approach and synergy of ideas, Ampcare, LLC was formed and brings you the ESP technique.

Russ Campbell
CEO

Russ, PT is an award-winning therapist and received his degree in Physical Therapy from Northwestern University in 1989. He is responsible for the company's growth, research and development.

Ampcare's ESP Dysphagia Therapy System

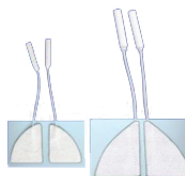

ES Stimulation Unit

- Cleared by the FDA
- The only hand-held unit with adjustable parameters for the treatment of dysphagia
- Adjustable parameters to manage patient comfort
- Multiple treatment settings
- Visible muscle contraction
- 30-minute treatment protocol

E Series Electrode

- FDA-cleared, patented electrode and the most economical
- Multiple sizes
- Reusable, economical, single-patient use
- Shape ensures proper placement
- Disperses current evenly for added comfort

Posture Device

- The only resistive exercise protocol
- Establishes the ideal head and neck position; maintains placement of E Series Electrode
- Comfortable, contoured fit
- Allows for optimal laryngeal and pharyngeal movement
